

# Aladdin Link Sharing Instructions

**Step 1:** Click the *Main Menu* button at the top left of your screen, and under *File* select *Save as Cloud File*.

Try to name your files in a way that you can tell them apart later!

**Step 2:** Once you are done with that design, click the blue Save button next to your named file at the top of the screen.

**Step 3:** Copy the link in your web browser and paste it in the Objective Space Graph.
